John 3:16

*For God so loved the world that he gave his one and only Son,
that whoever believes in him shall not perish but have eternal life.*

These plans are for the scratch builder in mind. Some things are left up to the builder; such as materials preferred, build technique, placement of hatches, throttle servo location, landing gear or placement of fuel tank. I offer these plans to anyone that wants to build one. These plans can be duplicated for the purpose of sharing only, not to be resold by money hungry greedy people that will rot in hell if they do! Have a nice day!

6.0000

NOTE 1 - The motor / boom mount could be built up from solid hardwood motor mount rails, and then fill in the area with balsa. Just use your imagination if you understand what it takes to make a strong motor/boom/landing gear mount.
